Black Nationalism is the only practical answer for Black People in the United States of America.

Let's Get Busy!

A WORD OR TWO EDUCATING BLACK CHILDREN

Why do parents send their children to school at earlier and earlier ages? So the child can get a job, that's why. The same parents who moan about a child's need to experience a full childhood don't hesitate to rush their child into structured learning environments if they think a dollar is at stake. What hypocrisy!

And how damaging that can be to Black People! It has been theorized that children who go into a structured learning environment before the age of 6 accelerate development of the logical area of their brain, but at the expense of the emotional area.

Thus, they develop an affinity for reports and statistics that outweighs feelings like love, empathy and human concern. They in effect take on the same imbalance that seems to be characteristic of white individuals and capitalism, the pro-business system that abuses humans as a matter of course. Being so wrapped up in the system, children are rendered incapable of effectively combatting the ills of that system when they become adults.

If there is one thing Black People need, it is the ability to effectively combat the ills of white power economics. When We begin to effectively fight the ills of white power economics, We will not have to concern Ourselves with adjusting to the warp of an unbalanced system. It's

understandable to want to prepare your children to be competitive in the work market, but if that can only be done at the expense of Our children's emotional development and the realization of Black Power, We should run the risk of leaving them a little less "marketable."

POWER QUOTES

"Education will open your mind to a world of possibilities. Don't confuse education with going to school or taking classes."

"We have many of the resources now that We had 10000 years ago. We just aren't making use of them the way We did back then."

"Education means more than learning that 2+2=4. Education means learning where you stand within the context of that formula, and all other formulas."

"The greatest education is involvement in a revolutionary process."

"Black males have both the lowest average of educational attainment and the highest percentage-- nearly 50%-- of workers with more education than their job requires." The American Directory of Certified Uncle Toms

"The answer to Our educational needs are Black adults who are responsible and politically mature."
